

Mutual Self Help Construction Housing Program

Self help housing is a program where participants work together with the instruction of our Construction Supervisor, to help each other build their homes. The expectation of Self help housing is that all participants will work a minimum of 17 hours per week and will have committed volunteers for another 13 hours a week.

We will work with you if you have work training or mandatory shifts as long as we know ahead of time and you can do make up hours.

Who qualifies?

Anyone who does not currently have a home or mortgage payment.

Anyone who fits within the annual income guidelines.

Anyone who has good credit and can qualify for a 502 mortgage to cover the cost of building.

Anyone who has the desire to achieve home ownership.

No prior construction experience is required to participate in this program.

Please make an appointment to get started with the process:

Vikki Ori, Housing Program Manager
at 435-613-0026. vori@seualg.utah.gov

We are assembling a wait list for Group 3 which will start in 2024.
